LEGISLATIVE UPDATE

2015 General Legislative Session

Issue #4

February 21, 2015

Welcome to the 2015 Legislative Update

This issue includes highlights of week four, what we can expect in the week ahead, and information for protecting wildlife and the environment. Please direct any questions or comments to Steve Erickson: erickson.steve1@comcast.net.

About the Legislative Update

The Legislative Update is made possible by the **Utah Audubon Council** and contributing organizations. Each Update provides bill and budget item descriptions and status updates throughout the Session, as well as important Session dates and key committees. For the most up-to-date information and the names and contact information for all legislators, check the Legislature's website at www.le.utah.gov. The Legislative Update focuses on legislative information pertaining to wildlife, sensitive and invasive species, public lands, state parks, SITLA land management, energy development, renewable energy and conservation, and water issues. The Update will be distributed after each Friday of the Session. We may also send out additional Action Alerts during the Session as issues arise that need quick action. We hope each Update

issue will prepare you to call, email or tweet your legislators with your opinions and concerns!

ACTION ALERT!

Contact members of Executive Appropriations and tell them to fund removal of invasive Phragmites that is harming the health of the Great Salt Lake ecosystem, fully fund air quality initiatives, and initial funding for a new nature center at Farmington Bay.

Contact your Representative and Senator and urge passage of HB 226 and SB 87, which untie Utah's hands in addressing our air quality problems.

Let your Senators and Representatives know what you think about them recommending spending over \$10 million to fight sage grouse listing and sue the federal government over RS2477 roads, states' rights, and ownership of the public lands.

Plan to attend the big rally against the "Great Public Lands Gamble" on Monday, 3/2, 4:30 pm at the Capitol Rotunda. And visit www.greatpubliclandsgamble.org and sign the petition!

News of the Fourth Week (# 4)

HB 44 Surface Leases Procedure Amendments, which will prohibit construction of a private toll road across Utah Lake, passed both House and Senate and is headed to the Governor for his signature.

HB 226 Air Quality Revisions, has been the subject of behind-the-scenes discussions regarding the amendment to allow Utah to adopt standards “different” from those of the EPA. No breakthroughs yet. Its Senate counterpart, SB 87, will likely be debated by the Senate Monday.

SJR12 Urging Analysis of Colorado River Management, was defeated in the Senate NRAE Committee on Tuesday, and will be discussed further during Interim Study.

The Senate Economic Development and Workforce Services Committee advanced SCR 7, expressing state support for expansion of the Utah Test and Training Range. We expect the land exchanges will be exempted from environmental review in the federal legislation sponsored by Senator Hatch.

Both the legislation (HB 49) and the budget request for new clean school buses continued to advance.

Budget News

The new February revenue projections that emerged Wednesday were a mixed bag, with solid growth in the Education Fund (income tax), but fewer new general Fund (sales tax) revenues than predicted. Republican leaders set aside 1/3 of new growth for one-time expenditures, leaving

\$389 million in ongoing revenues and \$350 million in one-time monies.

We owe the industries on the Great Salt Lake major kudos and big thanks for pushing to restore funding for pragmites removal. They met with and convinced NRAE Appropriations Co-Chair Sen. David Hinkins to put \$500,000 back on the table for consideration by Executive Appropriations.

The Division of Wildlife Resources’ request for \$2.5 million for a new Farmington Bay Nature Center is still in play, though at a reduced amount (\$1.5 m.). This funding would allow for infrastructure predevelopment activities, and go a long way toward make a new Center a reality!

What’s Ahead

The big issues of the Session will come into focus beginning in week 5, with debates starting on Medicaid expansion options, transportation funding, criminal justice reform, and possibly anti-discrimination legislation.
