## LEGISLATIVE UPDATE

2018 General Legislative Session

Issue #5

February 25, 2018

### Welcome to the 2018 Legislative Update

This issue includes highlights of week five, what we can expect in the week ahead, and information for protecting wildlife and the environment. Please direct any questions or comments to Steve Erickson: [erickson.steve1@comcast.net](mailto:erickson.steve1@comcast.net).

### About the Legislative Update

The Legislative Update is made possible by the **Utah Audubon Council** and contributing organizations. Each Update provides bill and budget item descriptions and status updates throughout the Session, as well as important Session dates and key committees. For the most up-to-date information and the names and contact information for all legislators, check the Legislature's website at [www.le.utah.gov](http://www.le.utah.gov). The Legislative Update focuses on legislative information pertaining to wildlife, sensitive and invasive species, public lands, state parks, SITLA land management, energy development, renewable energy and conservation, and water issues. The Update will be distributed after each Friday of the Session. We may also send out additional Action Alerts during the Session as issues arise that need quick action. We hope each Update

issue will prepare you to call, email or tweet your legislators with your opinions and concerns!

### ACTION ALERT!

The Substitute HB 272 (McKell) Utah Lake Amendments is an improvement over the original fast-track legislation, but its enactment remains a threat to the Lake and to the Jordan Valley watershed environment, as well as a development real estate boondoggle of unprecedented size and chutzpah. This island development concept (that's all it is at this point), needs much more study before the Legislature passes laws to grease the wheels. Urge your Representative and Senator and others to vote HB 272 down!!

HCR 7, which recognizes the impacts of climate change on Utah, will be debated on the House floor. Express your support!

The bill addressing a governing authority for the "inland port" development in SLC's Northwest Quadrant will debut Monday. The sponsor is Sen. Jerry Stevenson. Tell lawmakers to preserve the natural areas in the NWQ!

## **News of the Fifth Week (Week # 5)**

Rep. Noel revived his watered-down HR 135 –Extra-territorial Jurisdiction Amendments – with a 3<sup>rd</sup> Substitute that removes the state tax on water rates to fund water infrastructure and makes the bill effective in 2020. With these changes, it passed House NRAE and now awaits action on the House floor.

HB 136 (Rep. Noel), which would chill free speech by requiring all government entities to appear before the NRAE Interim Committee prior to taking a position on federal land designations contrary to that of the legislature, passed the House on a party-line vote.

Two problematic waste bills, the Energy Solutions tax break bill (HB 169) and HB 373 allowing self-inspections of solid waste landfills advanced. We will see if we can amend the latter.

Two good water bills should be noted. SB 204, which would require progress toward metering of all secondary water service, emerged. And HB 381, which creates a task force and fund to address optimizing use of ag water, advanced to the House floor.

## **Budget News**

The state is flush with new money, according to the mid-February budget projections. The strong economy produced a \$384 million in on-going surplus in revenue over previous forecasts and \$101 million in one-time supplemental revenue.

Executive Appropriations Committee is scheduled to meet Wednesday, and must have the bulk of the budget work for FY 19 and for supplementals done by Friday so that staff can write the budget bills over the weekend. So there will be major policy decisions to be made in the next few days.

Also in week 6, various proposals for “tax reform” or tax cut initiatives to adjust state taxes to ameliorate tax increases that will result from the recent federal tax reforms/cuts.

## **What’s Ahead**

Surprisingly, Standing Committee will continue to meet throughout week 6 from 8:00-10:00 and each day this week and from 2:00-4:00 T-W. So bills still have time to be heard in committees, even as the floor calendars lengthen. The House will “wipe the board” at the end of the day Tuesday or Wednesday, sending all bills on the 3<sup>rd</sup> Reading Calendar back to the Rules Committee to be sifted back to the calendar according to priority (or politics).

Floor time will be from 11:00 to 12:15 and from 2:00 to 4:00 each day.

<a href="#">HB 244</a> Culinary Water Discount	Rep. Daw	Provides that a retail water provider may offer a discount water rate to a culinary water customer that uses culinary water for irrigation or landscaping purposes, if the customer meets certain conservation best practices or irrigation efficiencies prescribed by the retail water provider. In House Government Operations Committee.	2	Oppose
Substitute <a href="#">HB 249</a> Statewide Resource Management Plan Adoption	Rep. Stratton	Adopts the statewide resource management plan, which incorporates RMPs compiled by all counties, and requires the Public Lands Policy Coordinating Office, as funding allows, to monitor the implementation of the statewide resource management plan at the state and local levels. These local plans are inadequate and were required largely to justify the kind of public lands management preferred by the Constitutional Defense Council and the Commission for the Stewardship of Public Lands. Passed House 57-9-9 on 2/23. In Senate Rules Committee.	2	Oppose

Substitute <a href="#">HB 253</a> Trust Lands Amendments	Rep. Snow	States that the director of the School and Institutional Trust Lands Administration may make determinations on state lands regarding the management, protection, and conservation of plant species proposed for designation as endangered or threatened under the Endangered Species Act of 1973, and modifies the procedure for the sale of trust lands. The substitute withdraws the authorization for the director of the School and Institutional Trust Lands Administration to enter into an agreement with a county or a municipality concerning the applicability of a local ordinance to trust lands. Passed House. Passed Senate.	2	Neutral

<a href="#">HB 267</a> Oil, Gas and Mining Amendments	Rep. Chew	Modifies the duties of an owner or operator in regard to a surface land owner. In House NRAE Committee.	2	Studying
Substitute <a href="#">HB 272</a> Utah Lake Amendments	Rep. McKell	The Substitute bill drops the new review panel and instead gives the Division of Forestry, Fire and State Lands the authority to dispose of state sovereign lands beneath Utah Lake as compensation for the comprehensive restoration of Utah Lake. It is still an unacceptable compromise of the public trust for a sketchy plan to build islands housing ½ million people in the middle of the lake. Passed House	1	Oppose

		NRAE 11-2-0 on 2/22. On House 3 <sup>rd</sup> Reading Calendar.		
Substitute <a href="#">HB 274</a> Brine Shrimp Royalty Amendments	Rep. Barlow	Substitute reduces the royalty rate by 50 cents per pound on the total number of pounds of unprocessed brine shrimp eggs that a person harvests within the state during a tax year. Directs \$125,000/yr to the Sovereign Lands Restricted Account. On House 3 <sup>rd</sup> Reading Calendar.	2	Support
