LEGISLATIVE UPDATE

2019 General Legislative Session
2019

Issue #2

February 10,

Welcome to the 2019 Legislative Update

This issue includes highlights of week two, what we can expect in the week ahead, and information for protecting wildlife and the environment. Please direct any questions or comments to Steve Erickson: erickson.steve1@comcast.net.

About the Legislative Update

The Legislative Update is made possible by the **Utah Audubon** Council and contributing organizations. Each Update provides bill and budget item descriptions and status updates throughout the Session, as well as important Session dates and key committees. For the most up-to-date information and the names and contact information for all legislators, check the Legislature's website at www.le.utah.gov. The Legislative Update focuses on legislative information pertaining to wildlife, sensitive and invasive species, public lands, state parks, SITLA land management, energy development, renewable energy and conservation, and water issues. The Update will be distributed after each Friday of the Session. We may also send out additional Action Alerts during the Session as

issues arise that need quick action. We hope each Update issue will prepare you to call, email or tweet your legislators with your opinions and concerns!

ACTION ALERT!

HB 220, which would grease the skids for dumping Class B & C Radioactive Waste and Depleted Uranium at Energy Solutions' landfill, is at the top of the House 2nd Reading Calendar, and may be voted on Monday 2/11. Contact members of the House - and Governor Herbert (801.538.1000) - to say No to HB 220!

SB 52 - Secondary Water Metering Requirements – will be debated in Senate NRAE Committee Monday afternoon. This is a top priority for water conservation efforts in Utah. Contact Senators and urge them to support this critical water saving measure.

News of the Second Week (Week # 2)

The Senate Transportation Committee soundly defeated SB 119, to the anger and frustration of Davis County residents and conservation advocates. Big rigs on Legacy Parkway pose a real threat to human health and to wildlife and their habitat, plus it's a step backwards for innovative and environmentally sensitive highway design.

The House NRAE approved HB 220, the Energy Solutions' bill, and it may get a quick approval by the full House and move to the Senate this week. Opponents are already lobbying the Senate and Governor to defeat this major policy 180 degree turnabout.

Budget News

The Senate approved SB 5, the Base Budget Appropriations for the Departments of Natural Resources, Agriculture, and Environmental Quality. So now the focus shifts to deliberations over new budget requests (aka "building blocks"). Top of the list for FFSL is \$500,000 in on-going funding for phragmites eradication.

Rep. Stewart Barlow has submitted a request for a one-time FY 2020 appropriation of \$500,000 for Great Salt Lake Research. This would target \$100,000 each for research aimed at the costs and benefits of maintaining optimal Lake levels and for research on the interconnectivity of the

various bays of GSL and its impact on nutrient and salinity flows. \$300,000 would support research on legal and policy options to ensuring continuous delivery of adequate quantities of water to the Lake.

Sen. Anderegg, sponsor of SB 52 (Secondary Water Metering Requirements), will make his case this week that the NRAE Appropriations Subcommittee should approve up to \$10 m. per year in loans and grants to help meter all secondary water statewide in the next 10-15 years.

What's Ahead

HCR 10, the resolution to address declining water levels in Great Salt Lake, will get a vote of the House in Week 3. We expect strong support in its passage.

We anticipate the bill that would revoke the previous legislative approval of the Promontory Point Class V landfill will be sent to House Rules Committee this week.

Appropriations Subcommittees will continue meeting every morning from 8:00 AM to 10:50 AM during Week 2. Floor time will be from 11:00 to 12:15, with a 2:00 to 3:30 floor session added. Standing Committees run from 3:40 to 6:00 PM. Parties in both chambers caucus 12:30 – 1:45 Tuesday and Thursday.
